

In the guidance notes for the matched funding, it is strongly advised to include formal letters and invitations of performance activities. I've included a formal letter from my German agent and business partner Alexander Dommisch from Waterfall Records explaining some basic points about this tour. And below is a list of all the confirmed venues, venue owners/bookers or local promoter and their details and ticket links for the shows. In smaller indie venues (200 – 350 capacity), where bookers and promoters often work 'day jobs' in other industries, it would almost be impossible to achieve formal letters and invitations from each venue, so I hope this is sufficient.

And as noted in my application, I have 13 years of experience performing EU tours and I haven't had a cancelled gig yet nor have I been disappointed by venue promoters or bookers not delivering on a show or on money promised. If you have any doubts about this tour, please feel free to email Alex and any of the venues or local promoters below and/or click through to some of these ticket links.
